The SOUND

- Original sounds recorded just for this model
- Sound units are compatible with both DCC and DC operations.
- Using DCC, program a m/u lashup with lead unit only horn, bell and lights.
- All sound features are operated by a wireless handheld remote and NO additional control box is required to operate advanced sounds in DC operation.
- Six-button remote control allows control in the DC mode of the horn, bell, coupler crash, break squeal, dynamic brake and brake air release.
- Additional DC mode programmable features allow for different bell and horn tones, coupler on/off, bell rate, directional lights on/off and volume control.
- Full DCC functions when in DCC mode.

The LOCOMOTIVE

- Fully assembled and ready to operate
- Installed scale profile Celcon handrails
- Directional Micro-Bulb head lights
- Highly detailed fuel tanks
- Detail variations to match the prototype - including the distinctive Conrail recessed fans and marker lights as well as the UP raised walkway
- Dynamically balanced skew wound armature and flywheels for smooth performance
- State-Of-The-Art tooling
- Cab interior
- See through fans
- McHenry™ scale knuckle spring couplers
