### PROTOTYPE HISTORY:

The Ford C-Series is a medium-duty cab-over engine (COE) truck that was built by Ford between 1957 and 1990. It was used primarily for local delivery, and fire apparatus. Many of the fire trucks came merely as cab and windshield models.

In production nearly unchanged for 33 years, the C-Series was the longest-produced commercial truck in North America at the time it was discontinued.
