The SOUND

- Tsunami sound units from SoundTraxx are compatible with both DCC and DC operations.
- Program a M/U lashup with lead unit only horn, bell and lights.
- Full DCC functions when in DCC mode.

The LOCOMOTIVE

- | | |
|---|--|
| • Fully assembled and ready to operate | • State-of-the-art tooling |
| • Installed scale profile Celcon handrails | • Cab interior |
| • Directional Micro-Bulb head lights | • See through fans |
| • Highly detailed fuel tanks | • Detail variations to match the prototype |
| • McHenry scale knuckle spring couplers | |
| • Dynamically balanced skew wound armature and flywheels for smooth performance | |

The original SD45-2 locomotive tooling was made to represent "as delivered" locomotives and as such has no provision for ditch lights.
