

# HO 4-6-6-4 Challenger

Announced: 02.27.15  
Orders Due: 03.27.15

ETA: November 2015

Era: 1940s - 1980s

This stunning reproduction of the 4-6-6-4 Challenger is the result of a focused determination to accomplish one thing: create the finest operating miniature representation of the prototype available. To say Athearn has succeeded would be an understatement. Giving life to all the details are authentic sounds that are channeled through a factory installed DCC and soundboard with speakers. The DCC decoder automatically senses what type of power supply is in use (conventional DC or NMRA compliant DCC) and adapts its functions. The modeler doesn't have to do a thing.

The Genesis 4-6-6-4 Challenger includes a history book and instruction book for quick reference.

## MODEL FEATURES

- Boiler backhead with printed manual controls
- Individually applied piping, valves, generators, etc.
- Correctly operating eccentric cranks
- Adjustable cab windows
- Headlights and number boards with directional light change
