- High-nose long hood forward
- Blomberg-M trucks
- Two Nathan P-5 air horns, one on each end
- Fire-cracker antenna
- Frame mounted Bell
- Q fans
- Late EMD Builder's plate

PROTOTYPE INFORMATION:

The Athearn Ready To Roll GP40X is based on Rail Power Products tooling and represents the locomotive that was produced in 1978. The spotting feature of these EMD "experimental" models are the flared (SD45-like) radiator grills. A few railroads received the model with the experimental HT-B (switcher-like) trucks. Replicating this locomotive with attention to detail makes the Athearn Ready To Roll GP40X the only choice with model railroad operators.

HO GP40X

Announced: 08.22.14
Orders Due: 09.26.14

ETA: May 2015

Southern Pacific*

7201 and 7230 are the same configuration

Era: 1995+

ATH90260	#7200
ATH90261	#7201
ATH90262	#7230
ATH90263	#7231

ROADNAME FEATURES:

- HT-B trucks
- Sunshades
- Nathan P-3 air horn
- Roof mounted Bell
- Blanked SP Signal Lights
- Q Fans
- Beacon on 7200, 7201, 7230
- Whip antenna
- Speed recorder
- Late EMD Builder's plate
- SP tall snowplow

MODEL FEATURES

- RPP hood with new cab, nose, and battery box sub-base
- Fully-assembled and ready-to-run out of the box
- Roadname specific details, such as signal lights and snowplows added whenever possible
- Painted and printed for realistic decoration
- Highly detailed, injection molded body
- See-through cab windows, radiator fans and dynamic brake fans
- Separately-applied horn(s) and wire grab irons
- Celcon handrails for scale appearance
- Quick Plug™ plug and play technology: DCC ready with both 8 and 9 pin connector unless noted*
- Bi-directional constant lighting so headlight brightness remains consistent
- Incandescent bulbs for realistic appearance
- Multiple road numbers
- McHenry operating scale knuckle couplers
- All-wheel drive with precision gears for smooth and quiet operation
- Heavy die-cast frame for greater traction and more pulling power
- All-wheel electrical pickup provides reliable current flow
- 5-pole skew wound motor with precision-machined flywheels and multi-link drive train for trouble free operation
- Wheels with RP25 contours operate on Code 75, 83, 100 rail
- Window packaging for easy viewing, plus interior plastic blister safely holds the model for convenient storage
- Replacement parts available including motor brushes
- Minimum radius: 18"
