60' PS Auto Parts Box Car

Era: 1965-1980s

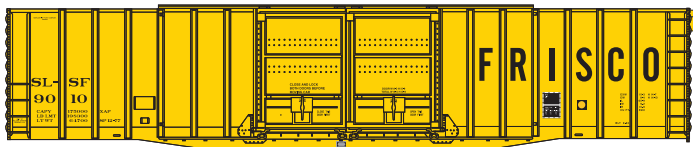

In the 1960s, Ford Motor Company, Pullman Standard and Santa Fe pooled their resources to develop a standard box car to meet the transportation needs of auto manufacturers in the United States. Delivered in 1965, Pullman Standard's version is the most prolific example of this type of auto parts box car.

- Fully assembled and ready to operate
- Weighted for optimum performance
- Machined metal wheels - Ready To Roll® sidframes
- Applied wire grab irons and etched end platforms
- Razor sharp painting and printing
- McHenry® scale knuckle spring couplers
- Highly detailed underbody including full cushion underframe
- Separately applied door closure rods
