### PROTOTYPE AND BACKGROUND INFO:

20ft refrigerated containers such as this are commonly used for the transportation of temperature-sensitive products. Constructed mostly of aluminum, the container's walls also incorporate thick insulation to help maintain a controlled temperature.

### MODEL FEATURES:

- Decorated models fully-assembled and ready to run out of the box
- Highly-detailed, injection-molded body
- Separately applied details
- Blister packaging for easy viewing

**\$29.98** 3-PACK SRP
