ATH28021 SPDU #680011/680037/680049/681155/681234/681302

MODEL FEATURES:

- All new road numbers
- Fully assembled
- Easily stackable
- Each container is individually numbered

PROTOTYPE AND BACKGROUND INFO:

An intermodal container, often called a shipping container, is a large standardized shipping container, designed and built for intermodal freight transport. These containers can be used across different modes of transport – from ship to rail to truck – without unloading and reloading their cargo. Intermodal containers are primarily used to store and transport materials and products efficiently and securely in the global containerized intermodal freight transport system.
