PROTOTYPE AND BACKGROUND INFO:

The Ford C series is a range of trucks that was assembled by Ford between 1957 and 1990. Produced as both a straight/rigid truck and a tractor, a wide range of versions of C-series was produced. The C-series was also used as a basis for fire apparatus production.

The Hackney Brothers Body Company was founded in 1852 in Nash County, North Carolina as a coach and wagon maker and in later years manufactured ambulances, refrigerated trucks and school buses. The company was closed by the end of 1996 and operations were consolidated with a holding of TTI, Hackney & Sons, Inc., based in Washington, North Carolina, which was founded by a grandson of the founder of Hackney Brothers Body Company in 1946. This Athearn beverage trailer is based on a Hackney trailer.

MODEL FEATURES:

- Factory assembled with many detail parts applied
