- Includes removable scrap load
- Screw-mounted 100-ton roller bearing trucks
- Body-mounted McHenry® lower shelf knuckle couplers
- Machined metal wheels with RP25 contours
- Accurately painted and printed for prototypical realism
- Highly detailed, injection-molded body
- Weighted for optimum performance
- Operates on all popular brands of track
- Minimum Radius 11" — Recommended Radius 15"

PROTOTYPE AND BACKGROUND INFO:

Starting in 2006, National Steel Car began construction of these giant 6,400 cu ft capacity gondolas. These exquisite Athearn Genesis models capture all of the details and variations of their prototypes. Our state-of-the-art tooling replicates the numerous build variations as well as multiple top chord and end variations. Separate details include full brake rigging, grab irons and etched crossover platforms. Add the definitive NSC 6400 gondolas to your modern roster with these all-new Athearn Genesis cars.
