### MODEL FEATURES:

- Newest horizontal rib front
- Easily stackable
- Separately applied door closure rods
- Each container individually numbered
- Fully assembled
- Razor sharp printing and painting

### PROTOTYPE AND BACKGROUND INFO:

An intermodal container is a large, standardized shipping container, designed and built for intermodal freight transport, meaning these containers can be used across different modes of transport – from ship to rail to truck – without unloading and reloading their cargo.

53' containers are the largest currently in use in the United States, and are used for carrying domestic shipments of mostly lightweight merchandise.

**\$89.99 6-PACK**
