HO 60' Gunderson Box Car

Announced 01.27.17
Orders Due: 02.24.17

ETA: December 2017

All Road Names

PROTOTYPE HISTORY:

The modern 100 ton, high-cube, 60' boxcar has become ubiquitous in the modern rail scene. These cars are designed to carry a myriad of loads, from auto parts to forest products. These boxcars are a fixture to any modern freight train.

The RTR model depicts accurately a Gunderson built boxcar. Many paint schemes from the extremely similar Trenton/Greenbrier built cars are also offered as close "stand-in" type models.

MODEL FEATURES:

- Fully assembled and ready for your layout
- Separately applied wire grab irons and etched end platforms
- Weighted for optimum performance
- Razor sharp painting and printing
- 36" metal wheels with RP25 contours operate on all popular brands of track
- Body mounted McHenry operating scale knuckle couplers
- Window packaging for easy viewing plus interior plastic blister safely holds the model for convenient storage
- Replacement parts available
- Minimum radius: 18"

PRIMED FOR GRIME MODELS FEATURE:

- Duplicated look and feel of "In Service" equipment; "Tattered and Torn" just like the real thing
- Faded base colors matched to the prototype
- Patches applied and shaped per road number matching each corresponding side to the prototype
- Perfect starting point for adding grime and rust
