- Body mounted McHenry operating scale knuckle couplers
- Window packaging for easy viewing plus interior plastic blister safely holds the model for convenient storage
- Replacement parts available
- Minimum radius: 18"

PROTOTYPE HISTORY:

The modern 100 ton, high-cube, 60' boxcar has become ubiquitous in the modern rail scene. These cars are designed to carry a myriad of loads, from auto parts to forest products. These boxcars are a fixture to any modern freight train.

The RTR model depicts accurately a Gunderson built boxcar. Many paint schemes from the extremely similar Trenton/ Greenbrier built cars are also offered as close "stand-in" type models.
