# SD70ACe

To commemorate their 30th anniversary, Norfolk Southern painted 20 new locomotives in unique paint schemes that reflect the heritage of their predecessors. We're joining the fun by updating our SD70ACe to honor these 10 locomotives as well as the #1030. We're also applying the 10 ES44AC paint schemes to our AC4400cw. Currently, the heritage locomotives are hauling freight across Norfolk Southern's 20,000-mile, 22-state network and beyond.

## Did you notice the details? Because we did.

See how the heritage SD70ACe is different from our current model.

1. New MU Receptacles on Both Front and Rear Pilots  
Equipped with additional "dummy" receptacles for storing MU cables.
2. Battery Charging Receptacle  
Located inboard of each "hot" MU receptacle.
3. Turbocharger Compartment Doors, Long Hood  
Small latched, hinged access doors at the top of the exhaust silencer manifold compartment. The entire forward section of the engine compartment is built out instead of flush.
4. Nose Headlight Plate  
Weld seam at the location of the plated-over, nose-mount headlight location.
5. Padlock Box  
Large padlock storage box for nose door security.
6. Electrical Cabinet Access Panel  
Equipped with a large, bolt-on electrical cabinet access panel
7. Late Inverter Cabinet (Chicago Blower Intake)  
Inverter cabinet features a large grille.
8. LSL Indicator Light  
Small Locomotive Speed Limiter Indicator Light underneath both sides of the cab.

9. ECP Connector Box and Connections  
ECP connections are located on both pilot faces next to the coupler.
10. ECP Equipment Box-Large control box that houses equipment for the ECP system.
11. Late Sander Brackets  
Heavy-duty support brackets for the truck sanding lines.
12. NS LEADER PTC Antenna Array  
Long, tubular radio antenna cover and a pair of Sinclair "ice skate" antennas
