- Clear window glazing
- Painted steps (as appropriate)
- Razor sharp painting and printing
- Molded plastic underframe with brake cylinder
- Body-mounted McHenry® knuckle spring couplers installed
- Screw mounted trucks for accurate tracking

### PROTOTYPE AND BACKGROUND INFO:

Perhaps one of the most recognizable icons of American railroading, the caboose completed the train. Caboose provide shelter for crew at the end of a train, who were long required for switching and shunting, and to keep a lookout for load shifting, damage to equipment and cargo, and overheating axles.
